WORK EXPERIENCE

Software Development Engineer
Flexera | July 2019 - present

- Responsible for developing Web Applications using ASP.NET Web API and Angular.
- Worked on integrating multiple APIs like ConfigMgr, and Microsoft Intune with Application.
- Involved in the complete Software Development Life Cycle (SDLC) including Analysis, Design, Implementation, Testing and Maintenance with Agile Methodology.
- Exceptional knowledge of Object-Oriented Programming (OOPS) concepts including Multithreading, Collections, and Exception Handling.
- Worked on Entity Framework Code-First approach with Repository-Pattern based backend and used Web API as transaction and communication technology to the client-side.
- Responsible for creating a custom search engine framework that improved expected results to 95%.
- Hands-on Experience in building responsive front-end web applications using HTML5, CSS, and Bootstrap UI framework.
- Created Typescript reusable components and services to consume REST API.
- Implemented HTTP requests using RxJS Observable library to handle multiple values over time.

Associate Software Engineer
Accenture | Nov 2018 - June 2019

- Worked as Front End developer using Angular.
- Worked on making responsive UI for the existing web application.
- Responsible for fixing security vulnerabilities in npm dependencies.

Software Intern
Flexera | Jun 2018 - Oct 2018

- Responsible for development of windows application using .Net Framework WinForms.
- Worked on SQL Server database using DevExpress framework.

PROJECT SAMPLE

- **ShoppingCart (https://varunbr.github.io/ShoppingCart/):** An E-commerce web application with features like product search, filter, order & track. This application also includes shipping management by receiving & dispatching orders from one hub to another.
- **BloodBank App (https://varunbr.github.io/BloodBank/):** A complete web app where users can search for blood donors or blood banks, this app also includes role management feature with multiple roles. Built using Angular and ASP.NET Web API.
